8 THE CHAMPIONSHIP

i) Points will be scored according to class position, taking into account only registered contenders, as follows

3 or more registered starters: 10-9-8 (-7-6-5-4-3-2-1) points down to 10th place,
plus 1 point to every other starter i.e. who crosses the start line.

1 registered starter 8 points

A bonus point will be awarded to any driver breaking the class target time during a competition run.

The class target time will be the best time set in each class *by a registered Gurston Championship contender* in the previous three seasons in which times in the class were set. Target times will be published before the first event of the season. Target times will be updated annually as required so that year on year they reflect the state of competitiveness in each class as recently as possible (without making changes during a season).

- ii) In the case of class amalgamations in a counting event, for whatever reason, scores will be calculated in the class for which competitors were originally eligible.
- iii) Points gained in TEN of the 14 qualifying rounds will count towards the Championship scoring total. The qualifying meetings will be April Saturday, April Sunday, June Saturday, June Sunday, July Saturday, July Sunday, September. Each of these meetings will comprise TWO qualifying rounds of the Championship, as each of the two competition runs will count towards Championship scoring. Registered contenders will be awarded points according to their position in the class on each competition run.
- iv) Competitors may score points in more than one class, but these will not be added together to count towards the overall championship total.
- v) In the event of a tie for position between two or more competitors the following tie-break procedure will be adopted in the sequence shown below until a result is achieved.
- The competitor with the higher number of scoring rounds wins.
 - If still equal, the competitor with the higher total of the dropped scores wins.
 - The competitor who beats by the most or gets closest to their class target time shall be the winner.
 - If competitors are still tied after comparing their season's best time to the target time, their second best times shall be compared to the target time, and the third etc. as required.
 - Should these methods fail to produce a clear winner, the Committee of the BARC (SW) will decide what further action should be taken.
- vi) At the conclusion of the Championship, trophies will be presented as follows:
